

# Jeanne d'Arc Chicago Trip

# The First Weekend In Chicago

- The first weekend, we all met our families and discovered how americans live.
- Some of us went out to see Chicago with their host, and I went to a fast-food called « Panda » with my host family.
- I have seen brands which we can't find here in France like « Mountain Dew » or « Doctor Pepper ».

# Chicago School

- The USA school system is really different : students have the same schedule everyday, they start earlier than us in France, and finish earlier too.
- They can even choose the subject they want to study (Americans don't have L, ES, S like us).

# Inside Chicago

- This is the « Cloud Gate », It was built between 2004 and 2006.
- You can see this Jewel of Architecture in the Millenium Park.

# The Field Museum

# Inside the Museum

- The Museum was really huge. First when you go in, there is a fake train and an access to a Movie Theatre.
- In the museum, there is a lot of interesting science info as : how does a plane work , the Movement of an object etc.

# Museum of History

- In this Museum, there are a lot of animal statues and old skeletons (even a dinosaur skeleton).
- Sadly, we couldn't visit the whole museum.

# Chicago Willis Tower Skydeck

- This is the view you have on the highest floor of the tallest tower of Chicago.
- This place is so high you have the same feeling as if you were in a plane.

# Chicago Bulls VS Los Angeles Clippers

# The Match

- This match was amazing. First of all when you arrive in the stadium, they give you a free headset with Chicago Bulls color on it.
- The crowd is shouting during the whole show, which is amazing and there are lots of lights everywhere.
- Sadly « the Bulls » lost but it was an amazing experience.

# The End

This trip was one of the best trips I have ever had : Discovering this new place with my friends and meeting new amazing people, seeing amazing landscapes during the whole trip.

Chicago is one of the best towns in the world!

I hope I will come back one day, and I hope for everybody that they can visit this fantastic city.
